

# DuraGuard UV Ultra Matte

## DuraGuard UV Ultra Matte

DuraGuard UV Ultra Matte is a heat-set laminating film that adds a non-glare matte finish with sacrificing color definition.

### Uses

Perhaps the highest-quality matte laminating film on the market, DuraGuard UV Ultra Matte is the perfect solution for situations where a non-glare finish is required or specific lighting conditions cannot be controlled. It is ideal for tradeshow displays and POPS that will be viewed under direct lighting from any different angles.

### The Quality Media Difference

In today's fast-changing marketplace, we know how important it is to have a reliable source. Not just of products, but of knowledge and information. When you choose Quality Media, you get someone who's as committed to the quality of your end product as you are. Someone who knows the options inside and out, and can help you choose the one that's best suited to your needs.

### Size

51" x 328'

### Catalog #

0440550

## Specifications

Finish	Matte
Base Film/ Filmic Carrier	3.0 mil (75 micron) PVC (vinyl)
Adhesive Bond	1.0 mil (25 micron) solvent acrylic
Release Liner	Moisture stable paper
Initial Tack	Low
Application Temperature	180° to 210°F (82° to 99°C)
Application Speed	1' to 6' (0.3m to 1.75m) per minute
Notes	To keep film from stretching as it becomes soft and pliable when heated, apply only minimal brake tension to unwind supply shaft and release liner take-up.  Adjust take-up shaft in such a way that release liner is removed just prior to entering rip rollers. By reducing adhesive's exposure to air, there is less chance of picking up dust particles.

## Ordering
