

# Quality EZCling 2-Way Matte

## Product Description

Looking for a 2-way window film to adhere to glass and other smooth surfaces? Try Quality EZCling 2-Way Matte Window Film. This 4.0-mil PET clear film is repositionable and removable and does not leave an adhesive residue on the surface.

## Uses

- Window Graphics
- Backlit Displays
- Decorative Glass Displays

## Advantages

- Translucent film allows message to be seen from inside or outside of glass.
- Film can be backlit at night and show vibrant colors in direct sunlight.
- Repositionable
- No adhesive residue remains after graphics is removed from glass surface. This includes long-term applications.
- Durable, does not require lamination.
- Eco-friendly
- Dries fast and does not stretch or curl.
- Can be reverse printed for interior mount applications.
- Compatible with UV curable and latex printers.
