

Quality PolyPro II

Product Description

Quality PolyPro II is a matte-finish, smooth and opaque, white polypropylene film. It provides an eco-friendly solution for 2-sided printing applications that require a smooth surface.

Uses

- Two-sided banners
- Two-sided window displays
- Indoor and short-term outdoor displays
- Tradeshow graphics
- Photo Printing
- POP/Retail Displays

Advantages

- Excellent opacity for two-sided printing
- Exceptional tear strength
- Water resistant
- Eco-friendly and recyclable
- Superior lay-flat characteristics
- Superior dimensional stability for color registration
- Combine Quality PolyPro II with one of our removable clear adhesives to create brilliant 2-sided window graphics.
- Compatible with UV curable and latex printers

Part #	Size
61836	36" x 150'
61850	50" x 150'
61854	54" x 150'
61860	60" x 150'

Specifications

Thickness	8 mil
Ink	UV Curable and Latex
Finish	Can be grommeted or sewn for use as an indoor banner. Double side tape can also be applied to the substrate.
Outdoor Durability	1 year under normal conditions
Printer Suggestions	Use HP White Satin Poster Paper setting with latex printers. Avoid overheating and be certain that material is dry before take up-reel is engaged. For double sided printing on HP Latex printers: When printing first side, use reverse wind-up setting 1 on take-up reel to help compensate for any rolls set curl lifting when printing second side.
Handling/Storage	Use gloves when handling product to avoid fingerprints in high ink areas. Store material in original packaging and away from direct sunlight, dust and dirt.
Shelf Life	6 months at 70°F, 50% RH
