

Indoor Wall Graphics

DuraVinyl adhesive vinyl products deliver superior imaging quality and offer a solution for every painted wall surface - whether it is for a one day event or a permanent wall graphic designed to be long term.

DuraVinyl is available with these removable adhesives -Dot adhesive/Mircosphere Adhesive/Ultra-removable Adhesive and Removable Adhesive. Several of these are available with air-egress technology and blockout adhesives.

DuraVinyl with permanent adhesive includes Medium Tack Adesive/ Hi Tack Adesive and Super Hi Tack DuraVinyl 435 Barricade Vinyl and also are available with air-egress technology and blockout adhesives.

To select the DuraVinyl product that is right for your project, contact your Quality sales person who can guide you to the proper product.

Installation Instructions

Recommendations for installing Duravynl to indoor smooth wall surfaces: Semi-Gloss paint is recommended. A matte paint may prevent the adhesive from properly tacking up. A primer paint also typically works well with adhesive vinyl. Paint can take up to one month to outgas, which prevents the adhesive from adhering properly.

Temporary Wall Graphics

Duravynl 157
