InstaShield Dry Erase

2.0 mil gloss polypropylene laminating film coated with an emulsion acrylic adhesive and backed with a paper release liner. Write-on / wipe-off surface specifications formulated for use with dry erase markers.

InstaShield Write and Wipe

A 1.0 mil clear polyester overlamine film with a high performance dry erase coating. Compatible with most dry erase markers and is the perfect solution for long term signage.

It has a gloss finish that protects printed images.

InstaShield FG

5 mil, low-glare, rigid vinyl with a textured surface and UL slip-resistant film. Coated with a high performance solvent acrylic adhesive and backed with a 2 mil film release liner. Durable enough for a variety of applications including floor and display graphics.

InstaShield Floor Guard Economy

A 3.7 mil, clear textured laminate for floor graphics for temporary and short term (90 days) applications. This product features a UL-410 slip resistance rating and is a PVC-free alternative to InstaShield FG.

Quality Value Laminates

Flexible, premium calendared vinyl film with high UV protection characteristics. Available in gloss, lustre, and matte finishes. Excellent for flat and simple curve applications.

3 year outdoor durable film with a clear solvent-based adhesive.

Quality Production Laminates

2 year outdoor durability pressure sensitive vinyl film, 3.5 mil, with a smooth clay-coated liner for a better wet-out look on graphics. Ideal for short term graphics at a cost effective price.

Gallery Guard

An earth friendly, archival finishing film designed specifically for fine art and photography. Gallery Guard will maintain black densities and every nuance of tone and gradation of your art and photography while protecting it from UV light, moisture, fingerprints, spills, dust and other contaminants. Unlike laminates made with PVC which can emit damaging toxins or laminates that require heat that can degrade or damage your print, Gallery Guard is completely non-toxic and requires no heat. It will not yellow, shrink or delaminate and is guaranteed to preserve and protect your artwork for the life of the print.
