INK COMPATIBILITY

2504 WallBliss Fibrous Spray & Stick is a high-quality, uncoated textured nonwoven made for digital printing. It is 100% PVC-free and eco-friendly. Its high-quality fibrous surface ensures outstanding printing results, making it a perfect choice for creating striking designs while prioritizing sustainability.

With an easy installation and removal process, it provides opportunities for more frequent use. Unlike other wallcoverings, you don't need paste, just spray water. This reduces the process time by 60%, and it is easy to apply, align, and re-position.
