DESCRIPTION

be.tex Triple white FR is already a top seller in the USA for frames, advertising curtains and banners. Triple White convinces with its opacity in comparison to knitted fabrics for comparable applications. The integrated colorbooster provides brilliant color reproduction and high-resolution prints. Crease-resistant and very soft feel.

NOTES

When handled carefully this fabric can be even folded after printing.

The numbers above are purely guidelines and may differ depending on your personal printing needs and expectations. Since the printing results depend on numerous factors, we strongly advise to test your output in order to find out if any adjustments are necessary. A legally binding assurance of certain properties of the fabric can not be derived from the information above.
