

# Lintec VisionControlFilm™

## Product Description

VisionControlFilm™ is one of the most innovative and exciting films available for glass. The effect it creates is quite simply amazing. From one viewing angle VisionControlFilm™ is optically clear - as if there's no film on the glass at all. But as you change your viewing angle the glass magically changes its opacity until a frosted effect is achieved.

## Applications

- Control views and privacy from different angles
- Create attention grabbing effect on glass in retail sector.

## Advantages

- Easy, quick and clean installation and removal.
- Choose from 8 different viewing angles.
- High specification self-adhesive coating means the film is as temporary or as permanent as needed.
- Manufactured for ultimate clarity and quality.
- Made from environmentally friendly PVC-free materials.
- Hard coated for improved scratch resistance and durability.
- Can be installed unprinted or printed.

An economical solution to adding a graphic to VisionControlFilm is to print on Lintec's E-2203RC and install over the VisionControlFilm. This allows you to change out graphics without having to remove the VisionControlFilm from the glass surface.
