

DuraGuard UV Lustre Perforated

DuraGuard UV Lustre Perforated

DuraGuard UV Lustre Perforated is a PVC (vinyl) laminating film with a semi-gloss finish and excellent UV protection.

Uses

With a pH neutral adhesive and UV absorbers, DuraGuard UV Lustre Perforated is perfect for use on non-porous media such as resin-coated photographs. It's also suitable for fabrics, canvas – even protection of raised surfaces such as leaves and dried flowers.

The Quality Media Difference

When you choose Quality Media, you get the convenience of three fully-stocked distribution centers in Connecticut, Florida, Georgia, Minnesota, and Texas – allowing for same-day shipping and next-day delivery on most orders. If your products are ever backordered, we give you the option of choosing an alternative at no additional cost to you.
