

# Fusion Display Film

## Product Description

Fusion Display Film is a polyester film with a satin textured surface. The polyester base film has a grayback blockout and is stable and will lay flat. The textured surface has a PVC print surface that makes this product a competitively priced solution when compared with traditional polyester display films.

## Uses

- Pop Up and Roller Banner Stands
- POP Displays
- Signage and Advertising

## Advantages

- Recommended for solvent and latex printers
- Compatible with UV curable printers
- Designed to resist heat from latex printers
- Anti slip/static coating provides accurate printer feeding.
- Will not curl (highly stable)
- Can be used indoors and outdoors.
- One step process - No laminate required.
