

PDQ Photo Satin Paper

PDQ Photo Satin Paper

PDQ Photo Satin Paper is a 8 mil, bright white photo paper designed for today's wide gamut pigment ink photo quality printers such as Canon, Epson, and HP. The microporous topcoat means your prints will be instantly dry and water resistant. This photo paper has superior shadow detail and extremely low dot gain.

Uses

- Photography/Fine Art
- Display Graphics
- Posters

Wide format full-color printing of any photographic or display graphic. Recommended for any printer using UV, pigment inks. When using dye inks, it is recommended that print be laminated within 24 hours to prevent the image from fading. Can be hot or cold laminated. For best results, use a pressure sensitive laminate to create a more durable bond.

Advantages

- Instant dry
- Compatible with pigment and dye inks
- Includes a special back coating to guarantee a flat sheet during the entire process.
- Resistant to humidity.

Specially formulated to work with the new generation of UV pigment printers for excellent print quality and super fast dry times. Perfect for high resolution images. Very economical price.

Size	Catalog #
24" x 100'	2824

Specifications

Thickness	8 mil
Weight	200 gsm
Gloss Level (60°)	Satin 17
Opacity	86%
Whiteness	145
Finishing	Accepts thermal and pressure sensitive laminates.
Storage	50-85°F, 30-65% RH Open Rolls - Cover rolls with plastic bag, use end cap if storing on end. Do not stack rolls. Allow material time to adapt to room conditions.
Shelf Life	2 years
Processing Instructions	Ink lay down not to exceed 350% For best results, use process black as opposed to composite black.
Printer Compatibility	Latex, Aqueous (Dye or Pigment)
Printer Settings	Canon IPF 5000, 8000, 9000 Heavyweight Semi-Gloss Photo Paper Epson Stylus Pro 4880, 7880, 9880 Premium Semi-Gloss Photo Paper (170) HP Z Series Universal ID Semi-Gloss Photo Paper HP 5000/5500 UV Universal ID Satin Photo Paper
Printing Tips	Always use gloves when handling rolls. Always print on the outside of roll. To insure best print performance of this media, clean and calibrate cartridges before loading the paper. While loading the HP 5000/5500/6100 printer, only feed 6" of paper beyond print heads. This will prevent alignment errors and banding. For best results, print in 60° to 85° and 40% to 60% RH.
