Product Description

Quality Latex Backlit I is an 8 mil, matte backlit film specifically designed for latex ink compatibility. A premium polyester base makes this product ideal for large displays and light box applications.

Uses

- Lightbox displays and signage
- Tradeshow exhibits and displays.

Advantages

- Durable matte coating
- Scratch resistant
- Premium polyester base
- Excellent print quality
- Excellent lamination properties
- 8 mil caliper
- Opacity > 65

The Quality Media Difference

Because we specialize in large-format, we can offer you one of the most comprehensive, top-quality product lists available. Even more important, we've amassed an unsurpassed knowledge-base about the products and how they work together. No matter what the application, you can rest assured that the paper, ink, adhesive, and laminating film you're using are the best possible match — not just for each other, but for the end product.
