Thickness	.55 mm
Tear Strength ASTM D2261-96 lbs of force	10.0 Warp 6.0 Filling
Break Strength ASTM D5034-95 lbs of force	230 Warp 140 Filling

Size	Gloss Catalog #
54" x 75'	8165754
60" x 75'	8165760

### Print Recommendations

Print Recommendations:

On most solvent-based machines, pre and post heat settings should be higher than when printing on vinyl film or fabric. Set at highest resolution, print mode "best" and media type "textile" or "backlit". For the best results on Roland and other Eco Solvent machines, the use of an external heater is recommended.

Information provided here is based on research and is believed to be reliable as of printing date. This information does not constitute a warranty. All material should be tested by purchaser to determine final suitability. Quality Media will not be held responsible for customer's end use of product. Quality Media is available for directions and advice as to proper use and application of our products.
