

DuraVinyl 258

DuraVinyl 258 self-adhesive vinyl with high opacity monomer PVC film. Equipped with a high performance removable adhesive clay coated double PE embossed paper liner. Our Vinyl is best suited for the short term, advertisements on flat surfaces.

Applications

Ideal for finished surfaces that are flat, smooth and clean. Premium interior applications. Non-vertical application results in a significant reduction in durability, as well as climate and angles of sun exposure. It is recommended that the vinyl remains at least 24 hours at the temperature of the workplace before it is used.
