TECHNICAL DATA SHEET

EuroLux™ Ready-to-Install (RTI) Removeable PSA Wallcover

EuroLux™ RTI is a 100% PVC-free, 9.5-mil Type I commercial and residential removable PSA-backed wallcovering. It is a smooth, coated nonwoven fabric made from a blend of polyester and cellulose fiber and is latex saturated to provide exceptional flexibility, dimensional stability, and strength. It also has a water a water based PSA backing. EuroLux™ is engineered to be printable on either latex, solvent, UV, or UV gel printers. It offers a stable and optimized white print surface that pvides a brilliant canvas for exceptional color fidelity and crisp clean imaging with a soft, true-matte finish. The product is Class A Certified (ASTM-E84).

Europen REACH standards
